# Year of the Dog 2018 Chinese New Year

“

Dragons have been very well received – the staff are knowledgeable, approachable and have very good classroom presence. They make the lessons fun, whilst ensuring that students learn. The enthusiasm of the students is outstanding.

”

Mrs Rosalyn Kamaryc, Principal  
Queen's Gate School

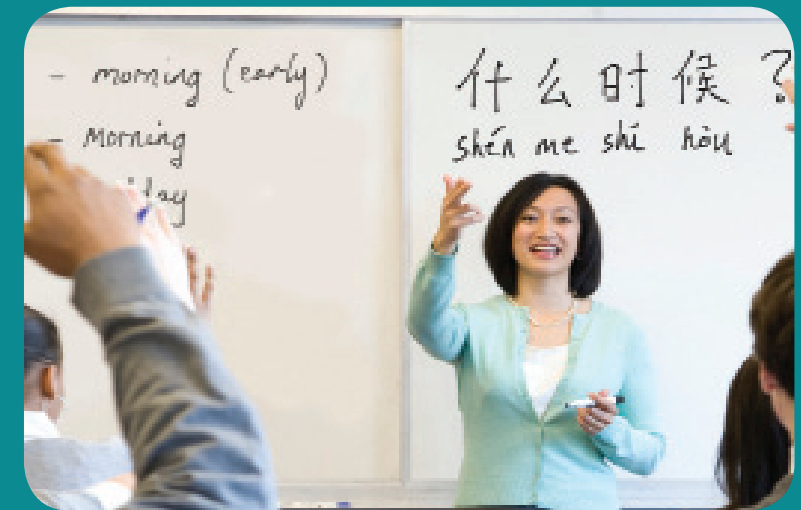

## excellent teachers

Our teachers are completely dedicated to their students, and are passionate about maximising engagement. All of our teachers are trained in Dragons teaching methods, which focus on delivering engaging lessons to non-Chinese speakers with no prior knowledge of the language or culture.

## inspiring language trips

Dragons run fantastic study trips to China every year. These are an incredible opportunity for students to practise their language skills and learn about Chinese culture in a completely immersive environment. Our trips are fully inclusive, safe and always very popular!

## leading resources

We publish a wide range of blended learning materials – textbooks, workbooks, online portals, videos and apps – to cover the needs of secondary school students. We are proud to work with our educational partners, including the Independent Schools Exam Board (ISEB) and Macmillan Education.
