Autumn 2018

Something new and exciting

Today there are more benefits than ever to start learning Chinese. Whether doing business with China or building Chinese networks, knowledge of this unique language and culture are a must to the modern working world.

The goals of every situation will differ. It might be basic cultural awareness, complete linguistic fluency or anywhere in between. Dragons are here to help you start this journey, and continue wherever it goes.

Cultural awareness

A good knowledge of Chinese culture is becoming crucial in workplaces all over the UK. Whether interacting with Chinese clients, partners or networks there are certain cultural differences, but also plenty of similarities, to get your head around.

Our flagship cultural awareness session covers how to make an impact in business, cultural faux pas, and more.

Onsite Corporate tuition

Chinese is fast becoming vital for business and career development. We have experience teaching professionals across the board, from e-commerce giants to financial services. Our courses all include critical cultural points alongside language.

You don't have to wait until you are fluent to start reaping the benefits of learning Chinese!

What people are saying

“ We organised Chinese lessons for our team because we work with Chinese brands and thought it would be a fun activity to do together. Dragons did not disappoint. Our excellent teacher pitched the learning content perfectly and not only did we learn, we enjoyed it enormously. ”
